	Approved For Release 2003/12/04 : CIA-RDP78B05171A000100010103-4								
	NARRATIVE REPORT Q INTERIM D FINAL								
25X1	NPIC test engineers and photogrammetrists have completed the technical acceptance tests and the operational suitability tests on the High Precision Stereo Comparator (HPSC). No major deficiencies were discovered during the 90 day test period. A list of routine type items, to be corrected by prior to final acceptance, has been prepared by the technical monitor and provided to personnel. has two engineers and two technicians working on the HPSC during the period 17 to 28 January 1972. The deficiencies will be corrected during this period. It is expected that the HPSC will be accepted from the	25X1 25X1							
	contractor early in February and that this contract will be closed out during the next reporting period.								
		25X1							
	approved during this reporting period. These funds are to be used to cover the unanticipated costs incurred byin stand-								
	by time during the installation of the HPSC in NPIC.	23/11
